Software Engineer

Motivated and fast-learning Software Development student at Uncommon with hands-on experience building web applications using Python, Django, HTML, CSS, and Git/GitHub. Passionate about creating real-world solutions through clean, functional, and user-focused development. Experienced in developing personal projects including e-commerce applications, with a strong interest in full-stack development, problem-solving, and continuous learning. Seeking opportunities to grow as a software developer while contributing to impactful technology projects.

WORK EXPERIENCE

Rural Electrification Agency (REA) • Masvingo, Zimbabwe • 03/2025 – 01/2026

The Rural Electrification Agency (REA) is a government organization responsible for expanding and improving access to electricity infrastructure in rural and underserved areas of Zimbabwe. The organization supports national development through electrification projects, infrastructure management, and community-focused energy solutions.
